In raply to another question from Mr. Lamb, President Lerou stated that the board investigated the delinquents in former years and had always instructed the tax collector to put liens on. The amount of uncollected taxes has been growing with each year. In 1907 it was \$300, in 1908 \$350, in 1909 \$500. Some liens had been placed, but not all that should have been put on. One man in the attendance raised a laugh by suggesting sarcastically that Mr. Lamb had better settle the matter by taking the job himself. et was named without contest:

The following ticket was nominated: Mr. Peck spoke of the conditions, saying that the tax rate was higher than that of any other district, but this year the board had determined on one thing and that was to pay off

something on the debt. This had been done to the extent of a payment of \$700. He explained that the grand list nominated:

son they needed to go one of three things—either lift the tax rate, get all the tax in or vote in favor of school consolidation. He thought the time had arrived for consolidation and he hoped all the West Chelsea men would vote for it. He said he knew no collector could take a man by the throat, but liens could be put on and he thought the majority of the delinquents would pay if got after.

Mr. Lamb accepted the challenge to settle the matter himself and nominated Charles E. Whitaker, but this gentleman declined because he said Mr. Lamb had stated he wanted a young, vigorous man in the office, and Mr. Whitaker felt that he could not measure up to these qualifications.

Chairman Ives stated that there was a way of collecting back taxes through bringing suit, and President Lerou explained that if suits were brought it In a most harmonious caucus of Monday afternoon, held at the residence of Erastuc C. EUZEMA FROM TEETHING

"When my little girl was about eight nonths old, she was taken with a very tritating breaking out, which came on her face, neck and back. When she first came down with it, it came in little watery-like festers under her eyes, and on her chin, then after a few days it would dry down in scaly, white scabs. In the daytime she was quite worrysome and would dig and scratch her face nearly all the time.

"I consulted our physician and found she was suffering from eczema, which he said came from her teething. I used the ointment he gave me and without any relief at all. Then I wrote for a book on Cuticura, and purchased some Cuticura Soap and Ointment at the drugstore. I did as I found directions in the Cuticura Booklet, and when she was one year old, she was entirely cured. Now she is three years and four months, and she has never been troubled with eczema since she was cured by the Cuticura Soap and Cuticura Cintment."
